CRUSH PROTOCOL

Platform based on the **Binance Smart Chain.**

Decentralized Venture Capital (DeVC) is an untapped niche in the crypto space. Experts provide exclusive guidance to empower creators through access to hand-selected resources like funding, marketing, design, development, trust-proofing, and more..

Crush protocol aspires to drive blockchain adoption by introducing disruptive, trustworthy projects to investors that solve real-world issues and generate value.

What is binance Smart Chain blockchain

Introduction

Binance Chain was launched by Binance in April 2019. Its primary focus is to facilitate fast, decentralized (or [non-custodial](#)) trading. Perhaps unsurprisingly, the biggest decentralized application (or [DApp](#)) on it is Binance [DEX](#), one of the friendliest decentralized exchanges out there. You can use it via a web interface at [binance.org](#) or through its native integration with [Trust Wallet](#).

Due to limitations inherent to [blockchain](#) systems, however, the chain doesn't have much flexibility – [smart contracts](#) in a system optimized for fast trading could significantly congest the network. Remember [CryptoKitties](#)? At the height of its popularity, it brought the Ethereum blockchain to a standstill.

[Scalability](#) remains one of the most challenging hurdles to blockchain development. And that's where Binance Smart Chain comes in

What is Binance Smart Chain?

Binance Smart Chain (BSC) is best described as a blockchain that runs in parallel to the Binance Chain. Unlike Binance Chain, BSC boasts smart contract functionality and compatibility with the [Ethereum Virtual Machine \(EVM\)](#). The design goal here was to leave the high throughput of Binance Chain intact while introducing smart contracts into its ecosystem.

In essence, both blockchains operate side-by-side. It's worth noting that BSC isn't a so-called [layer two](#) or [off-chain](#) scalability solution. It's an independent blockchain that could run even if Binance Chain went offline. That said, both chains bear a strong resemblance from a design standpoint.

Because BSC is EVM-compatible, it launched with support for the rich universe of [Ethereum](#) tools and DApps. In theory, this makes it easy for developers to port their projects over from Ethereum. For users, it means that applications like [MetaMask](#) can be easily configured to work with BSC. Seriously – it's just a matter of tweaking a couple of settings. Check out [Use MetaMask for Binance Smart Chain](#) to get started.

BINANCE SMART CHAIN

CRUSH PROTOCOL FEATURES

Community Led

Led by the community. Our token holders will be able to govern this value; For every sale and purchase of NFT's & Souvenirs on the platform, a portion would be donated to different shelters in order to ensure we create the social impact.

Social Impact

We aspire to create an eco-system with creates positive social impact each time the token is utilized. We believe its our responsibility to do so and something the project has inculcated within its core values. We aspire to create an eco-system with creates positive social impact each time the token is utilized. We believe its our responsibility to do so and something the project has inculcated within its core values.

NFT Coming...

Socio-NFTs to support these lovely endangered species will be launched in the next phase. You will be able to buy these and proceeds will be donated towards shelters & foundations who support their protections.

Binance Smart Chain:

Crush protocol bep20[bsc] base coin.

blockchain server

CRUSH PROTOCOL

BSC BLOCKCHAIN

BSC NETWORK

Market Size

Cyber security market is estimated to reach \$231 Billion by 2022.

Project Information

NAME : CRUSH PROTOCOL

TOKEN TICKER : CUP

NETWORK : BSC [BEP20]

MAX SUPPLY : 500,000,000

DECIMAL : 18

CONTRACT ADDRESS : 0x355b4f5df1cb31c41976866f16a1c79b35d8abc9

Token Metrics

DISTRIBUTION	PERCENTAGE
Airdrop	10%
Bounty	04%
Marketing	7.5%
Presale	19.5%
Development	08%
Staking	18%
Team	15%
Ceo	18%
ALL	100%

Supply : 500,000,000

Roadmap

Community building	Staking Program	Desktop Apps - Windows & MAC OS	Second (another) Security Tool addition in app
BEP20 Smart Contract Deployment	Liquidity Pools	Browser Widget launch	CUP features Integration & usage on Polkadot & Other Chains.
BEP20 Smart Contract Audit	CUP Wallet (Phase 2)	Desktop app for Linux	Forming partnerships with key industry players.
CUP Token (Pre-Sale)	More Exchange Listings & Partnership	In-app Staking Program for more tokens.	Hosting virtual meetups for awareness.
Product Launch - (Phase 1)	Binance Smart Chain Mainnet	Aggressive Social Marketing Campaign	CUP SWAP
Mobile apps - iOS, Android	CUP App features Integration & Usage on BSC (Phase 2)	More Pools addition	Marketing & Partnership Campaigns
CUP Wallet (Phase 1)	In-App Staking Program for CUP Token	Creating more telegram groups with native language support.	
DEX Listing			
Marketing & Partnership Campaigns			

THANK YOU
